

Rangeland Conservation Service Ltd.

Sustainable project solutions...

Minimizing impact with cost effective ideas...

Rangeland Conservation Service Ltd. (Rangeland) is an Alberta-based environmental planning and geotechnical engineering consulting firm incorporated in 1996. We are a leader in providing sustainable project solutions from concept to construction. We maintain excellent relations with regulators and stay current with changes. We go the extra mile to produce products that creatively minimize environmental impact while maintaining planning budgets and achieving Client's business objectives.

Mission

Our mission is to provide reasonable and effective, grass roots environmental planning and geotechnical engineering services that promote sustainable development to the energy (oil and gas), utilities, agriculture and municipal sectors.

Why Us?

Rangeland believes in working with our clients to achieve cost-effective project solutions while meeting all regulatory needs. We assist our clients in successful acquisition of regulatory approvals while meeting recommended industry best practices for proposed projects.

Our Services

Rangeland's services are managed under our Environmental, Aquatics, Geotechnical Engineering and Agricultural divisions. Our services include:

- Linear Development and Facility Siting
- Pre-development Surveys, Regulatory Planning and Approvals
- Phase I Environmental Site Assessments
- Geotechnical Engineering Planning, Evaluations and Design
- Wildlife Surveys
- Vegetation Assessments
- Wetland Assessments
- Aquatic Assessments
- Range and Riparian Health Assessments
- Baseline Inventories
- Long-term Vegetation Studies
- Low Impact Development
- Club Root Management Plans
- Water Quality Monitoring
- Bioengineering and Habitat Restoration
- Environmental Inspection and Monitoring
- Post Construction Reclamation Assessment

Rangeland is committed to providing our Clients with practical, comprehensive environmental and geotechnical solutions that meet budgets and schedules. We are dedicated to providing industry leading expertise and we strive on building relationships with Clients by completing projects with integrity, pride and professionalism.
